

Daily Health Check

Check Symptoms

If your child has any of the following symptoms, that indicates a possible illness that may decrease the student's ability to learn and also put them at risk for spreading illness to others. Please check your child for these symptoms daily:

	Temperature 100.4 degrees Fahrenheit or higher when taken by mouth
	Sore throat
	New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
	Diarrhea, vomiting, or abdominal pain
	New onset of severe headache, especially with a fever

Return-to-School Policies

If the student/parent/caregiver answers YES to any question the student would be excused from school in accordance with existing school illness management policy (e.g., until symptom-free for 48 hours without fever reducing medications).
